HEADLINES

This particular small 1-day online comes through as an interim that will intersect with the incoming Higher ray. The alignments will come through very easy as they match the former HOS 4. This is also a great preparation for the incoming year as things have changed.

The Divine culminates the end of the House of the Rising Sun in September 2026, 3 months earlier, for a good reason; that is that we bring through the end of the old captivity termed the Astral Planes.

There will be one HOS bringing through the Song notes in Plane 4 in December 2025, Plane 3 in March 2026 and the fusion with Plane 2 & 1 in June 2026. With it also comes the end of what we were used to align with such as full moons and new moons that are part of the old solar system.

Rising above these frequencies requires the Master within to open up the degrees og Living Light into the Omni Immortal system with a new incoming Crystalline Grid: the Beauty of the BLACK OMNI CHANDELIER, matching the Body of Pink Beauty within the Pink Lotus Flower Grid. Both are

part of the Flower of Life, which is our origin.

As the Divine stepped down all the way from Plane 10 into Plane 1, we can match these steps which is already felt all around the Globe, especially the United States, where people are leaving the country by the masses due to the integration of "The Base 5-Guitar strings" that brings through the

12-song notes and the 12 numbers matching the Divination deck.

As a preparation for the integration and flow of the 12-songnotes, overriding the density of the 7 lower notes, we need to get the mechanics in offered by the Enochian keys; which one will experience through this small 1-day integration, to be practiced for 1 year, or until new technology opens the Higher Realms of Living Light/Lite

Enjoy! Sharlotchi & Team.
